About Me

I'm computer science student at FAST NUCES with an interest in Web and mobile app development. Apart from focusing on my university coursework, I have been actively self-learning New skills and technologies. I want to become capable of building applications from scratch to deployment hence my goal is also to become a full stack developer. I always think of making apps that could solve real world problems and therefore always ready to learn anything that can help achieve my goals. I also made my portfolio website so do check out. <https://aliqumail.vercel.app/>

Skills

Programming C++ · Javascript · Python

Web/App Html · Css · Bootstrap · React JS · Node (express.js)

Tools Visual Studio, Atom, Ms Word, PowerPoint, Git, Github

Education

Feb 2021

- Participated in an online coding competition held by a software company named 'DEVSINC' and came up second among 400+ participants from different universities.

Among Top 5% out of 900k + participants in Javascript linkedin Assessment test

March 2021

- A MCQ based test on LinkedIn for javascript where I came in top 5% in 900k+ takers. You can verify that on my LinkedIn profile as well.

Front-end developer intern at Interns Pakistan

Jan 2021 - Feb 2021

- A virtual internship that tested my front-end skills which included HTML, CSS, JavaScript, and React js. The internship included various questions that covered core concepts as well as a few projects using React Js which included making a Bmr calculator, my profile website, Quiz taking app, and a few more projects.

Projects

- GPA Calculator App (React Js),
- Spend my Billions Game (React Js)
- The Journal App (Node Js)
- To Do List App (React Js)
- Quiz Taking App (React Js)
- My Personal Portfolio (React Js)
- Tic Tac Toe Game (React Js)

All of my projects are available on my Github : <https://github.com/AliQumail>

Courses & Certifications
